SOUTH DAKOTA MEETING

[Concluded from page 103]

sales and legislation. Not all nurserymen are growers, but all are interested in sales and all should be concerned with state and national legislation that affects their business.

The information shared informally in personal contacts made at meetings can also be highly beneficial. Nurserymen must strive constantly to improve their product and their workmanship, he asserted, and an active South Dakota association will help each nurseryman in the state to operate his business in a more efficient and profitable manner.

After a luncheon in the Union ballroom, the separate afternoon sessions were held, as mentioned earlier in this report. The florists' program was conducted by Dr. Jesse M. Rawson, associate horticulturist at the state college, who discussed soil testing as well as the work done to date on grades and standards and its possible application to South Dakota. The florists' group concluded its afternoon by touring the college greenhouses and viewing the work in progress.

BILL DREW, in the nursery and landscape field at Dallas, Tex., for the past seven years, recently held a grand opening of Drew's Nursery & Garden Shop, 4221 Abrams street.
